

STUDY VISIT ON AUTONOMOUS VEHICLES

Two days of insights
and discussions

10 & 11 DECEMBER

OSLO, NORWAY

Join PAVE Europe, Ruter AS, Mobileye, and Holo for a two-day event dedicated to exploring Europe's most advanced deployment of autonomous vehicles in real winter conditions. The study visit will bring together policymakers, operators, industry leaders, and researchers to exchange knowledge, experience live demonstrations, and discuss the next steps toward safe, connected, and inclusive automated mobility across Europe.
